6th February 2024

Dear Parents/Carers

Thank you for your continued support towards your child's regular completion of Home Learning. We are really pleased to announce that the percentage of children completing Home Learning has risen to 71%. We strongly believe that by your child completing their Home Learning, they will develop their learning further and improve vital learning behaviours to support their future education.

However, it has become apparent that some children are starting their Maths Flex nuggets, but are either not spending an adequate amount of time to develop their understanding, or they are just not being fully completed. If children are not completing their nuggets fully or are rushing through them, they will not benefit from the experience.

Moving forward, teachers will be monitoring the children's completion time and overall score of the nuggets. If they feel that it has been rushed and the score does not reflect your child's true ability or it has not been fully completed, the nuggets may not count towards their weekly total and this could impact on them taking part in the reward if their class is selected.

We know that this does not apply to the vast majority of children, but we wanted to make you aware so that you can support your child in making the right choices with regards to their own learning.

If you feel you require further support with Home Learning, please contact your child's class teacher.

Yours sincerely

Abigail Claypole
Home Learning Lead
