

## Get started with Norton Family

If you're not sure how to protect your children while they're online, help is here! We'll get you up and running in no time, and provide everything you need to protect your family from Internet dangers and inappropriate content. We'll even help you keep your children from passing along confidential information online.

Use the information below to set up Norton Family and help your kids enjoy the Internet safely. It is easy and takes only three steps. You can also [set up Norton Family on your mobile device](#) to get instant alerts and to change your family settings at any time.

### What is Norton Family?

Norton Family is an online service that helps you to monitor the Internet activities of your children from anywhere using [Norton Family website](#) or [Norton Family mobile app for parents](#). Thereby, it helps parents to protect their children from Internet dangers and lets children practice safe online behavior and develop good online habits.

#### Safe & sound

The internet is a great social and educational tool for children, but their rich online lives and wide networks can also expose them to hidden temptations and dangers. That's where Norton™ Family comes in...

A tool that's been designed to help you keep your children safe online, Norton™ Family lets you establish sensible, age-appropriate parameters for your kids' online activity.

#### Easy as 1, 2, 3...

1. Create your Norton™ Family account
2. Download Norton™ Family onto all your PCs, Android mobile phones or tablets. There is no limit on the number of devices you can download this on.
3. Assign a User Name and Date of Birth for each user and allocate users for each device. Age-related default settings will be configured automatically: to personalise settings, simply log into the Norton™ Family Centre.

#### Norton™ Family

- Easy to set up, with default settings based on your children's ages
- Prevents access to inappropriate online content
- Shows you how your children represent themselves on social networks\*
- Lets you prevent your children from sharing sensitive personal information online\*
- Helps you manage their computer time\*.

\*Features only available for PC.
