

Setting up Parental Controls for the first time

There are two ways to set up BT Parental Controls. It only takes 5-10 minutes.

Setting up a new Hub

When you set up your new Hub, you'll be guided through the installation. During the installation you'll be given the option to set up BT Parental Controls. Just follow the instructions.

Existing customer with a BT Hub

You can get BT Parental Controls by accessing them through your My BT account.

1. [Log in or sign up to My BT](#) with your BT ID
2. Scroll down to and click on the **Manage your extras** button

The screenshot displays the 'Your latest bill' section with a bill amount of £92.32, marked as 'BILL PAID'. It includes payment details (05 Mar 2018 via Direct Debit) and the billing period (24 Jan 2018 - 23 Feb 2018). Below this, the 'Additional charges since your last bill' section shows £2.97 from 24 Feb 2018 to today. The 'Your package' section offers options to manage extras, add-ons, and settings. The 'Manage your extras' button is highlighted with a red rectangle.

Your package [View your package >](#)

Here's where you can manage your extras and add-ons, control your settings and keep up to date with your usage.

Broadband Phone BT TV BT Sport Mobile

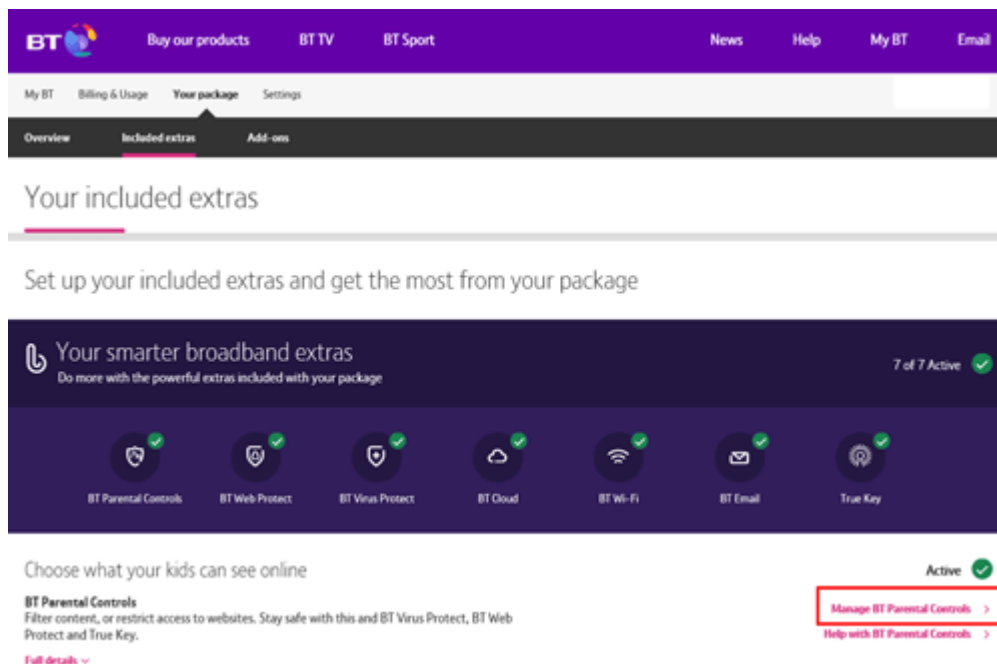

Handy extras included in your package
Activate and manage your included extras like online security and loads of useful calling features.
All extras are active 5 of 9 Active

Manage your extras >

Boost your package with add-ons
Get more add-ons or manage what you already have. We'll help you make the most of your package.
[Manage your add-ons >](#)

Take control of your settings
Check and change the settings of all your BT services - from TV and phone to security and online storage.
[Manage your settings >](#)

3. Scroll to the 'BT Parental Controls' section and click the **Manage BT Parental Controls** link

4. Activation will take place automatically and you'll be put on the 'Light Filter'. It'll take about a minute to complete the set up
5. You'll then receive a confirmation screen and your filters will be live within two hours

Non-BT hub or router

It's preferable that you use a BT Hub. However, if you don't have one, you can still use BT Parental Controls, but you must make sure that you are using BT DNS settings. You may need to check the instructions that came with your router for how to do this.

[Check your DNS settings](#)

How can I tell if my BT Parental Controls are active?

To check if your BT Parental Controls are active:

1. Log in to your [My BT](#) account
2. Scroll down to and click on the **Manage your extras** button
3. On the My Security management page, if the slider in the 'BT Parental Controls' panel is set to 'On', BT Parental Controls are active. Just click on the slider to quickly switch BT Parental Controls on or off

Any changes you make can take up to two hours to take effect. If two hours have passed and BT Parental Controls are still not active, then try rebooting your Hub.

[How to reboot your Hub](#)

How long after I have set up the filters will the BT Parental Controls take effect?
Once you have set up the filters, it will take up to two hours for your filters to activate. However, you can still log in and customise any of your BT Parental Control settings during this time.

I've rebooted, restarted or reset my BT Hub. Do I need to set up BT Parental Controls again?

No, your BT Parental Controls settings are linked with your account. So if you reboot, restart or reset your hub, all of your settings will still be there.

Changing filter levels

These are the three predefined filter levels on BT Parental Controls (Light, Moderate and Strict). You can customise your filters to suit your needs but the screen below shows which categories are blocked for each of the predefined filter levels.

Category	Light	Moderate	Strict
Pornography			
Obscene and tasteless			
Hate and self-harm			
Drugs			
Alcohol and tobacco			
Dating			
Nudity			
Weapons and violence			
Gambling			
Social networking			
Fashion and beauty			
File sharing			
Games			
Media streaming			
Sex education	Personalise only		
Search engines	Personalise only		

1. [Log in to My BT](#) with your BT ID
2. Scroll down to and click on the **Manage your extras** button followed by clicking on **Manage BT Parental Controls**

3. Select 'Manage Settings' under BT Parental Controls and choose the **Change filter levels** tab

Change filter levels Manage Allowed & Blocked sites Set filter Times

Use the slider below to change your filter level. Choose one of the pre-set levels or move the slider to Custom to create your own filter level.

Light Moderate Strict Custom

<input checked="" type="checkbox"/> Pornography	<input checked="" type="checkbox"/> Obscene and Tasteless	<input checked="" type="checkbox"/> Hate and Self-harm	<input type="checkbox"/> Drugs
<input type="checkbox"/> Alcohol and Tobacco	<input type="checkbox"/> Dating	<input type="checkbox"/> Nudity	<input type="checkbox"/> Weapons and Violence
<input type="checkbox"/> Gambling	<input type="checkbox"/> Social Networking	<input type="checkbox"/> Fashion and Beauty	<input type="checkbox"/> File Sharing
<input type="checkbox"/> Games	<input type="checkbox"/> Media Streaming	<input type="checkbox"/> Search Engines	<input type="checkbox"/> Sex Education

Undo changes Save changes

4. You can select from the three pre-defined filter levels - 'Strict', 'Moderate' and 'Light'. Just move the slider to the filter level you want and select **Save changes**. You'll see a list of what categories will be blocked by that filter setting
5. You can then customise this filter level even further by moving the slider to **Custom**. Just select or de-select any blocking category you want to change

Use the slider below to change your filter level. Choose one of the pre-set levels or move the slider to Custom to create your own filter level.

Light Moderate Strict Custom

<input type="checkbox"/> Games	<input type="checkbox"/> Media Streaming	<input type="checkbox"/> Search Engines	<input type="checkbox"/> Sex Education

Undo changes Save changes

6. To make the changes, click **Save Changes** at the bottom of the section
7. Your new filter level will be active within 10 minutes

What are the blocking categories on Parental Controls?

This table shows the different blocking categories you can select within Parental Controls and what types of websites they block. For example, online gambling sites are for adults over the age of 18. BT Parental Controls allow you to restrict and block access to gambling sites. You just need to change your filter level to block the gambling category.

Blocking category	Description
Pornography	This category will block sites that contain explicit sexual content. This includes adult products such as sex toys and videos, adult and escort services, strip clubs, erotic stories and descriptions of sexual acts.
Drugs	This category will block sites that give information on illegal drugs or misuse of prescription drugs.
Alcohol & Tobacco	This category will block sites that promote or sell alcohol or tobacco related products or services.
Hate and Self-harm	This category will block sites that promote or encourage self-harm or self-injury. The category also includes sites that encourage the oppression of people or groups based on their race, religion, gender, age, disability, sexual orientation or nationality.
Nudity	This category will block sites that contain full or partial nudity. The content blocked will not necessarily be of a sexual nature. This will include sites where the main purpose is to advertise or sell lingerie, intimate apparel, or swimwear.
Weapons and Violence	This category will block sites that encourage suicide or depict, sell, review or describe guns and weapons. This

	<p>could be for sport or sites that contain images or text depicting or advocating physical assault against humans, animals, or institutions. Sites where the content is of a gruesome nature will be blocked.</p>
Gambling	<p>This category will block sites that offer or are related to online gambling, lottery, casinos and betting agencies involving chance.</p>
Dating	<p>This category will block sites that promote networking for interpersonal relationships such as dating and marriage. This includes sites used for match-making, online dating, spousal introduction and escort services.</p>
Social Networking	<p>This category will block social networking sites used for friendship, dating, professional reasons and other various topics. It will also block sites used for online chat, like chat rooms and instant messenger sites.</p>
File Sharing	<p>This category will block sites used to illegally distribute software or copyrighted materials such as movies, music, software cracks, illicit serial numbers, illegal license key generators and sites used as a direct exchange of files between users.</p>
Games	<p>This category will block sites relating to computer games, online games or other games. This also includes sites that provide information about game producers, or how to obtain cheat codes. This will include blocking access to online multiplayer gaming servers and online app stores.</p>

Media Streaming	<p>This category will block sites that deliver streaming content, such as Internet radio, Internet TV or music. It will also block sites that provide live or archived media downloads. Fan sites or an official site run by musicians, bands, or record labels will also be blocked.</p>
Obscene and Tasteless	<p>This category will block sites that may be offensive or tasteless such as bathroom humour, or gruesome or even frightening content such as shocking depictions of blood or wounds, or cruel treatment of animals. It also blocks sites which offer advice on how to commit illegal or criminal activities, or to avoid detection. These can include how to commit murder, build bombs, pick locks, etc. Sites with information about illegal manipulation of electronic devices, hacking, fraud and illegal distribution of software will be blocked.</p>
Fashion and Beauty	<p>This category will block sites that relate to the advertising and discussion of fashion, jewellery, glamour, beauty, modelling, cosmetics or related products or services. This will also include sites where the main content contains fashion and beauty product reviews, comparisons, and general consumer information.</p>
Homework	<p>'Homework time' provides an additional layer of protection over and above day-to-day filters. This can be set to turn off/on according to the times customers specify. Homework time will block social networking, gaming and cheating sites in addition to the usual controls.</p>
Search Engines and Portals	<p>'Search Engines and Portals' will block sites where the main purpose is to enable the searching of the web, newsgroups,</p>

	images, directories and other online content. Includes portal and directory sites such as white/yellow pages.
Sex Education	This category is intended to prevent very young children from being exposed to sites that have a significant focus on subjects that might come up in a sex education programme. Parents should carefully consider the possible adverse effects from denying children of an appropriate age access to information on these issues.
